CYBERBULLYING
Cyberbullying is the use of technology to tease, humiliate, threaten or harass someone. Examples might include:
- Sending mean or inappropriate texts.
- Posting embarrassing photos.
- Sharing private information about someone to humiliate or mock them online.

WHAT YOU CAN DO TO PREVENT CYBERBULLYING:
- Know who you are interacting with online.
- Ensure your social media accounts are private and accessible only to pre-approved family and friends.
- NEVER give your home address or location to anyone you meet online.

SEXTORATION
Sextortion is a type of blackmail used by others to acquire sexual content from a child, coerce them into engaging in sexual activity or obtain money.
- Remember, the blackmailer is to blame.
- Show a parent or a trusted adult right away.
- Do not pay money or comply with the blackmailer’s requests.
- Report the account via the platform’s safety feature.
- Block the suspect but DO NOT DELETE the messages or your profile.
- Report the crime to law enforcement or Report.CyberTip.org.

Send me $500 now or I'll send it to all your friends and family. I can ruin your life.

THINK BEFORE YOU POST
Sending school threats is NOT a joke. In the second it takes to press send, you could jeopardize everything you planned for your future, including graduating from high school, college acceptance, military service or the career you hope for. Don’t make one regrettable mistake. Think Before You Post.
