

PLAN. PRACTICE. ESCAPE.

Keep Your Home and Family Safe

1

Install smoke alarms inside every bedroom, outside all sleeping areas and on every floor of your home.

Place fire extinguishers on each floor of your home, especially in the kitchen and garage.

2

Test smoke alarms monthly and replace batteries at least once a year.

3

4

Close your room doors at night as part of your bedtime routine. Closed doors help stop the spread of fire.

5

Create a fire escape plan and practice it twice yearly.

“Every second counts in a fire emergency. Remember, a well-prepared family is a well-protected family.”
