

Sheriff Scott Israel

PRIVACY NOTICE

HOMELESS MAGAGEMENT INFORMATION SYSTEM (HMIS)

We collect personal information about the clients we serve in a computer system called ServicePoint. ServicePoint is generally used by social service agencies which generally provide prevention, shelter and housing related services in Broward County. ServicePoint complies with all the requirements related to keeping your personal information private and secure.

We use the personal information to run our Homeless Outreach Team program as it helps us improve our services to clients. Also, we are required to collect some personal information by organizations that fund the program. Information provided by clients is used to get appropriate available services to them through our program and/or programs offered by other agencies.

Clients have a right to review the information that the Broward Sheriff's Office has about them. If a client finds any mistakes, you can ask us to correct them. Clients also have a right to file a complaint with us if a client feels that their privacy rights have been violated.
